General

Manuscripts, in English, should be submitted to the Editor's Office via the journal's web-based **online manuscript submission and peer-review system**:

Manuscript Submission

Inquiries regarding journal policy, manuscript preparation, and other such general topics should be sent to Managing Editor:

Maia Christopher
4900 SW Griffith Drive
Suite 274
Beaverton, OR 97005

Voice: (503) 543-1023
Fax: (503) 643-5084
E-mail: maia@atsa.com

The online system offers easy straightforward log-in and submission; supports a wide range of submission file formats [such as Word, WordPerfect, RTF, TXT, and LaTeX for manuscripts; TIFF, GIF, JPEG, EPS, PPT, and Postscript for figures (artwork)]; eliminates the need to submit manuscripts as hard-copy printouts, disks, and/or e-mail attachments; enables real-time tracking of manuscript status by author; and provides help should authors experience any submission difficulties.

Manuscripts should be checked for content *and* style (correct spelling, punctuation, and grammar; accuracy and consistency in the citation of figures, tables, and references; stylistic uniformity of entries in the References section; etc.), as the typesetter is instructed to follow (accepted) manuscripts as presented. Page proofs are sent to the designated author for proofreading and checking. Typographical errors are corrected; authors' alterations are not allowed.

Copyright

Submission is a representation that the manuscript has not been published previously and is not currently under consideration for publication elsewhere. A statement transferring copyright from the authors (or their employers, if they hold the copyright) to Sage publications will be required before the manuscript can be accepted for publication. The Managing Editor will supply the necessary forms for this transfer. Such a written transfer of copyright, which previously was assumed to be implicit in the act of submitting a manuscript, is necessary under the U.S. Copyright Law in order for the publisher to carry through the dissemination of research results and reviews as widely and effectively as possible.

Manuscript Style

Type double-spaced using generous margins on all sides. The entire manuscript, including quotations, references, figure-caption list, and tables, should be double-spaced. Number all pages consecutively with Arabic numerals, with the title page being page 1. In order to facilitate masked (previously termed "double-blind") review, leave **all** identifying information off the manuscript, including the title page and the electronic file name. Appropriate identifying information is attached automatically to the electronic file. Upon initial submission, the title page should include only the title of the article.

An additional title page should be uploaded as a *separate* submission item and should include the title of the article, author's name (no degrees), and author's affiliation. Academic affiliations of all authors should be included. The affiliation should comprise the department, institution (usually university or company), city, and state (or nation) and should be typed as a footnote to the author's name. This title page should also include the complete mailing address, telephone number, fax number, and e-mail address of the one author designated to review proofs.

An abstract is to be provided, preferably no more than 250 words.

A list of 4–5 key words is to be provided directly below the abstract. Key words should express the precise content of the manuscript, as they are used for indexing purposes.

Illustrations (photographs, drawings, diagrams, and charts) are to be numbered in one consecutive series of Arabic numerals and cited in numerical order in the text. Photographs should be high-contrast and drawings should be dark, sharp, and clear. Artwork for each figure should be provided on a separate page. Each figure should have an accompanying caption. The captions for illustrations should be listed on a separate page.

Tables should be numbered (with Roman numerals) and referred to by number in the text. Each table should be typed on a separate page. Center the title above the table, and type explanatory footnotes (indicated by superscript lowercase letters) below the table.

List references alphabetically at the end of the paper and refer to them in the text by name and year in parentheses. References should include (in this order): last names and initials of *all* authors, year published, title of article, name of publication, volume number, and inclusive pages. The style and punctuation of the references should conform to strict APA style – illustrated by the following examples:

Footnotes should be avoided. When their use is absolutely necessary, footnotes should be numbered consecutively using Arabic numerals and should be typed at the bottom of the page to which they refer. Place a line above the footnote, so that it is set off from the text. Use the appropriate superscript numeral for citation in the text.

In general, the journal follows the recommendations of the 2001 *Publication Manual* of the American Psychological Association (Fifth Edition), and it is suggested that contributors refer to this publication.
